Institutional Information

NAME, ADDRESS AND OTHER FORMS OF CONTACT

Escola Superior de Educação de Paula Frassinetti (ESEPF)

Rua Gil Vicente, 138-142 4000-255 Porto - Portugal

Internet: www.esepf.pt

E-mail: Center for Institutional Relations and Cooperation (CRIC): cric@esepf.pt

BRIEF DESCRIPTION OF THE ESEPF

Formed in October 22, 1963, Higher School of Education of Paula Frassinetti (ESEPF) has already trained thousands of education professionals (teachers, social educators, and other educational agents) through bachelor, masters, post-graduate and ongoing training. The institution is known for its quality teachers that add human proximity to academic excellence. As a higher education institution, it favors the pedagogic practices in professional context and it has protocols with more than eighty (80) institutions (Schools, IPSS, Municipalities and others) in the Greater Porto area. In its activity, it implicates teachers and students in projects and international networks of scientific investigation and socio-educational intervention.

The international level is a constitutive part of the ESEPF's dimension, for it integrates the educational network of the Congregation of the Sisters of Saint Dorothy, which runs educational centers in Europe, Africa and North and South America, with more than 4 500 teachers and almost 7 000 collaborators for around 48 000 students. Besides the ESEPF, two other higher education institutions are also part of this educational network, both operating in Brazil - the Frassinetti Faculty of Recife and the Saint Dorothy Philosophy Faculty, in Nova Friburgo.

Academic Calendar

Academic calendar established in the last academic year (see in our web page: [2022-2023](#)) - as reference:

- Beginning of 1st Semester: September 19th 2022
- Exams Evaluation Period: January 16th to February 18th 2023
- Beginning of 2nd Semester: February 6th 2023
- Exams Evaluation Period: June 26th to July 8th 2023
- Christmas Holidays: December 23rd 2022 to January 1st 2023
- Saint Paula's Celebration: March 3rd 2023
- Easter Holidays: April 4th to 10th 2023
- Queima das Fitas: May 9th to 9th 2023

CURRICULAR UNITS - 3 rd Semester	ECTS	CODE			
Optativa * <i>Optional *</i>	5	91244			

* As unidades curriculares optativas estão disponíveis apenas no início do semestre (Aprendizagens e Comunicação Multimodal ou Desenho, Implementação e Avaliação de Recursos Educativos ou Tecnologias de Aprendizagem Colaborativa)
The optional curricular units are available at the beginning of the semester (Multimodal Communication and Learning or Design, Implementation and Evaluation of Educational Resources or Technologies for Collaborative Learning)

NOTE: Classes are taught in Portuguese. Therefore, you need to have some knowledge of Portuguese before travelling to Porto. However, for studying or evaluation purposes other languages can be allowed, namely English, French and Spanish. This has to be discussed with the teacher on a particular basis.

MASTER IN COMMUNITY INTERVENTION

(Level 7 EQF -European Qualifications Framework) [See the programs here - Tab: Plano de Estudos](#)

Mestrado em Intervenção Comunitária (Nível 7 do QNQ - Quadro Nacional de Qualificações e do QEQ - Quadro Europeu de Qualificações)

This course works in post-labor basis (including Saturdays) and only at the beginning of the academic year will be possible to confirm whether it will be available. However, similar subjects can be found in other courses.

STUDENT'S EVALUATION

[Evaluation Rules](#)

SYSTEM OF CLASSES ATTENDANCE

Students can only miss 1/5 of the total number of hours of a specific curricular unit.

ECTS application in ESEPF

ECTS CREDITS

ECTS credits are a numerical value (from 1 to 60) allocated to each course unit, representing the student workload required to complete them. They just show the quantity of work each course unit requires in the institution or department which allocates the credits, in relation to the total quantity of work necessary to successfully complete a full year of academic studies at the institution: lectures, practical work, seminars, individual study and examinations or other forms of assessment. Therefore, ECTS credits are a relative rather than an absolute measure of the students' workload. These credits are based on a full student workload, not limited to the number of contact hours.

ECTS credits do not take into account the difficulty or the level of the course unit, the kind of work required or its optional or compulsory nature. It is up to each institution to be consistent in allocating credits and to establish the criteria used, as well as to decide on the most adequate grade awarded to the student.

Within the ECTS, 60 credits represent one-year academic workload and 30 credits represent a semester. Therefore, it is guaranteed the workability of the programme, regarding the workload during the period the student studied abroad.

HOW DOES ECTS WORK?

ECTS students must fulfil the general conditions of eligibility for an ERASMUS+ student. Students will be awarded full credit for all the academic work successfully done at any of the partner institutions and will be able to transfer those academic credits from one institution to another. This is always according to the agreement reached on the study programme between the student and the home and host institutions.

Most ECTS students travel to a single host institution in one country, where they study for a limited period of time and then return to their home institution. The credits are transferred and students will precede their studies at the home institution without any loss of credits or even time. Students, who choose to stay at the host institution or move to another host institution with the aim of completing their degree, must obtain the agreement of the institutions involved and meet the criteria required by the host institution.

ECTS GRADING SCALE

The ECTS grading scale is not going to replace the local grading system. In fact, it aims to give additional information to the grades awarded to the student. The ECTS grades complement the information regarding the grades awarded to students. However, their transfer can only be carried out effectively by means of a European-wide "common scale". To obtain a 10-25-30-25-10 pattern, the boundaries between grades would be drawn at 10%, 35%, 65% and 90% of the total number of successful students. So, the following table was adopted:

ECTS Grade	% of passing students	Definition
A	top 10% (90%-100%)	EXCELLENT - outstanding performance with only minor errors
B	next 25% (65%-90%)	VERY GOOD - above the average standard but with some errors
C	next 30% (35%-65%)	GOOD - generally sound work with a number of notable errors
D	next 25% (10%-35%)	SATISFACTORY - fair but with significant shortcomings
E	next 10% (0%-10%)	SUFFICIENT - performance meets the minimum criteria
FX	---	FAIL - some more work required before the credit can be awarded
F	---	FAIL - considerable further work is required

Formalities for entering and studying in Portugal

OFFICIAL APPLICATION: APPLICATION FORM/LEARNING AGREEMENT

Students who intend to spend a study period at the ESEPF should fill in the **Learning Agreement** to make their application official, with the help of the teacher responsible for the mobility and the local coordinator. This form includes information such as personal data, home institution data, language skills, former and current studies. The students must mention the study programme they intend to proceed (including the number of ECTS credits allocated). To send us the Application/Learning Agreement please access the students [OLA platform](#) or ask your University to nominate you through the EWP Erasmus Dashboard platform (thereby you will receive a notification to register or access the students OLA platform and you will be able to complete the LA).

The Learning Agreement has to be signed by the student, by the home Institution (Responsible person in the sending institution) and ESEPF.

For several circumstances (the same timetables, changes to the curricula, incompatibility of the chosen courses, etc.), students may need to change the study programme agreed upon previously, prior or after their arrival at the host Institution. These changes have to be accepted by the parties and the document must be signed again.

Additional Documentation (to send by e-mail to CRIC: cric@eseopf.pt): ID document (Passport/ID Card) and 1 passport digital photo (.jpg or .gif).

DOCUMENTS THAT ONE MUST NOT FORGET

Making sure you have the adequate documents before departing to Porto is essential. These are some of the documents you need:

- ID document (Passport/ID Card);
- European Health Insurance Card or Private Insurance Forms.

Students shall get information in their own countries about these card or forms because with these they can use the social insurance services like any other Portuguese student.

DEADLINES

Deadline to receive the Learning Agreement:

- 1st Semester or to the academic year: 30th June
- 2nd Semester: 30th November

FEES

The Erasmus+ presupposes fee waving at the host institution, including fees due to registration, final exams, access to laboratories and libraries.

Therefore, this is applicable to all foreign students spending a period of studies at the ESEPF within the scope of the Erasmus+. As an Erasmus+ mobility student, you are nonetheless responsible for small charges, such as photocopies, etc. - as is the case of national students.

EUROPEAN HEALTH INSURANCE CARD

One of the problems students face when they decide to spend a study period abroad is health care. Community provisions on social security provide some solutions on this matter - the European Health Insurance Card (<http://ec.europa.eu/social/main.jsp?catId=559&langId=en>).

This card is available to European citizens who are travelling within the 27 EU countries, Iceland, Liechtenstein, Norway and Switzerland, for private or professional reasons.

This document allows students to be assisted in case of sickness or personal accident, thus taking advantage of a wider coverage in terms of health care. The European Health Insurance Card, to be requested to the social security service of your country, is a proof that you are registered in that social security service and allows you to take advantage of health services in Portugal. In this case, students will be asked to pay as much as national citizens under the same circumstances.

Health Insurance

The European Health Insurance Card form is part of an agreement between the Member States of the European Economic Area (EEA) and Switzerland. However, there are other agreements between Portugal and other countries outside the EEA. Students from those countries should ask for further information in their own country before travelling to Portugal. If they fall outside the system mentioned above, students must get a health insurance, which will provide them with health care during their stay in Portugal. Without one of these students will have to pay for the respective health treatment.

Civil Liability Insurance

This cost-effective insurance is not compulsory, but is recommended, since health insurance policies and the European Health Insurance Card do not cover civil liability (damage caused to third parties) of your daily activities (outside ESEPF activities, which are covered by School insurance).

Personal Physical Accidents Insurance

This insurance is not compulsory but is recommended. Besides covering personal physical accidents in your daily life, this insurance often provides you with repatriation insurance, in case of sickness or accident (depending on the insurance policies).

FORMALITIES AT THE ARRIVAL

Documentation

It is important to send papers in advance, fully filled in. One shall also arrive at Center for Institutional Relations and Cooperation (CRIC) with all the needed documentation and inform CRIC about one's arrival date, so that everything is carefully planned.

Once the foreign student arrives at Porto shall contact ESEPF to assure that everything runs properly and to obtain documentation and information about different subjects.

Lodging (Accommodating)

ESEPF does not provide accommodation and the students are free to seek a place to live. However we can advise you in your choice. (Contact: cric@esepf.pt)

Enrolment

When the students arrive to ESEPF, they will get an application form to enrol at Academic Services.

Students must already be enrolled at their home institution.

Disabled Students

Disabled students should inform the CRIC in advance.

Further assistance will be provided in these cases, especially by the Student Aid Office (GAE).

Social and Cultural Integration

The welcome and cultural integration of the students is in charge of the GAE, CRIC and the Students' Union. The learning of the Portuguese language and the social environment will ease this integration.

The responsible teacher for the mobility must also keep up with the student's school life, so that problems don't occur.
